

News Release

ColdChase Inc. Rebrands as Sentii

Connecting Smart Industries

Edmonton, Alberta (March 31, 2025) – Leaders in smart industries trust ColdChase Inc.'s solutions, which are built on precision, reliability, and real-world impact. Their cutting-edge sensor technologies drive predictive analytics, automation, and efficiency across various sectors. Today, the company is excited to announce it has rebranded to Sentii, marking a new chapter in its evolution. This change reflects the company's continued growth and its commitment to delivering secure, actionable data for asset tracking, supply chain visibility, and environmental monitoring.

With the increasing demand for real-time analytics and robust data security, Sentii is at the forefront, delivering cutting-edge solutions. By utilizing advanced IoT sensors, AI-driven analytics, and encrypted data, Sentii offers businesses precise, tamper-proof intelligence, empowering industries to streamline operations and improve decision-making.

"We're excited to launch Sentii," said Rosy Amlani, CEO of Sentii. "With the increasing demand for real-time analytics, Sentii is leading the charge by providing advanced solutions powered by IoT sensors, AI analytics, and encrypted data to help industries optimize their operations and make more informed decisions."

The rebrand to Sentii is effective immediately, and the company has launched a new website at sentii.com, where businesses can discover the full spectrum of its innovative IoT solutions.

About Sentii
